

RAFAEL RANGEL DOS SANTOS FARINHA

Software Architect

Architecture · Multi-tenant SaaS · Scalability · Security · AWS · Azure

Rio de Janeiro, Brazil · (21) 92036-1740 · stackflow.soft@gmail.com

[github.com/Rafael-Rangel](https://github.com/Rafael-Rangel) · [rafael-rangel.github.io/portfolio](https://rafael-rangel.github.io/portfolio)

SUMMARY

Define end-to-end SaaS architecture: multi-tenancy, APIs, queues, security, and horizontal scale. Turn business requirements into contracts, isolation boundaries, and cloud decisions (AWS and Azure). Lead the Software Department at Genesis Company.

EXPERIENCE

|                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| Jul 2025 – Present  | <b>Software Engineering Director &amp; Software Engineer</b><br>Genesis Company · Rio de Janeiro, Brazil <ul style="list-style-type: none"><li>Led architecture for multi-tenant SaaS (workspaces, RBAC, data isolation).</li><li>Designed APIs, webhooks, queues, and async processing for messaging spikes (WhatsApp/Meta).</li><li>Defined scale paths: load balancing, multi-instance, rate limiting, and circuit breaking.</li><li>Modeled security: authn/authz, secrets, OWASP API, and per-tenant isolation.</li><li>Guided Docker/VPS delivery and cloud usage on AWS and Azure (compute, identity, storage).</li></ul> |
| Jul 2024 – Jul 2025 | <b>Web Developer / Software Developer</b><br>Webmaker · Rio de Janeiro, Brazil <ul style="list-style-type: none"><li>Structured frontends and integrations with performance, SEO, and API contracts in mind.</li><li>Documented flows and evolved client systems without breaking operations.</li></ul>                                                                                                                                                                                                                                                                                                                          |

FEATURED PROJECTS

**KoruVision CRM** — [github.com/Rafael-Rangel/koruvision-landing](https://github.com/Rafael-Rangel/koruvision-landing)

Multi-tenant SaaS architecture, omnichannel, queues, and AI agents.

**Pulse** — [pulse-rangel1.vercel.app](https://pulse-rangel1.vercel.app)

TypeScript app with data modeling and cloud deploy. [github.com/Rafael-Rangel/pulse](https://github.com/Rafael-Rangel/pulse)

EDUCATION

Analysis and Systems Development — FIAP. Completed in 2025 (2-year degree).

CERTIFICATES

- Professional Qualification in Technology Strategy and Innovation with AI and IoT (2025)
- Professional Qualification in Mobile Application Development (2025)
- Professional Qualification in Web 2.0 Analysis and Design (2024)
- Professional Qualification in Systems Analysis and Web Prototyping (2024)
- Professional Qualification in Systems Analysis and Web Prototype Design (2024)
- Professional Qualification in Web 2.0 Development and Design (2024)

TECHNICAL SKILLS

- Architecture:** multi-tenancy, event-driven, queues, webhooks, modularization, observability
- Scale & security:** load balancing, horizontal scaling, RBAC, OWASP, secrets, PII, rate limiting
- Cloud:** AWS, Azure, Docker, VPS, basic CI/CD, PostgreSQL
- Stack:** TypeScript, Node.js, NestJS, React, Next.js, REST APIs
