SUMMARY

Software architect for multi-tenant SaaS: I design workspaces, RBAC, data isolation, REST APIs, webhooks, and event-driven architecture with queues, async processing, microservices, modularization, and C4. I define horizontal scale, load balancing, rate limiting, circuit breaker, observability, and metrics, with security around authn, authz, OWASP API, secrets, and PII. I deliver on AWS, Azure, Docker, VPS, and CI/CD using PostgreSQL, TypeScript, Node.js, NestJS, React, Next.js, WhatsApp Cloud API, Meta, CRM, AI, and RAG.

EXPERIENCE

Jul 2025 – Present	Software Engineering Director & Software Engineer SaaS · Rio de Janeiro, Brazil • Led architecture for multi-tenant SaaS (workspaces, RBAC, data isolation). • Designed APIs, webhooks, queues, and async processing for messaging spikes (WhatsApp/Meta). • Defined scale paths: load balancing, multi-instance, rate limiting, and circuit breaking. • Modeled security: authn/authz, secrets, OWASP API, and per-tenant isolation. • Guided Docker/VPS delivery and cloud usage on AWS and Azure (compute, identity, storage).
Jul 2024 – Jul 2025	Front-end Developer Web · Rio de Janeiro, Brazil • Built e-commerce with 5,000+ products, catalog management, Bling integration, POS in 3 stores, and factory inventory fully synchronized. • Built a delivery system with payment gateway, Pagar.me split, freight calculation, and Correios integration.

FEATURED PROJECTS

KoruVision CRM — github.com/Rafael-Rangel/koruvision-landing
CRM SaaS with AI agents, Workflows, RAG, and omnichannel support (WhatsApp/Instagram).

Pulse — pulse-rangel1.vercel.app
TypeScript app with data modeling and cloud deploy. github.com/Rafael-Rangel/pulse

EDUCATION

Analysis and Systems Development — FIAP. Completed in 2025 (2-year degree).

CERTIFICATES

- Professional Qualification in Technology Strategy and Innovation with AI and IoT (2025)
- Professional Qualification in Mobile Application Development (2025)
- Professional Qualification in Web 2.0 Analysis and Design (2024)
- Professional Qualification in Systems Analysis and Web Prototyping (2024)
- Professional Qualification in Systems Analysis and Web Prototype Design (2024)
- Professional Qualification in Web 2.0 Development and Design (2024)

TECHNICAL SKILLS

- **Architecture:** multi-tenancy, event-driven, queues, webhooks, modularization, observability
- **Scale & security:** load balancing, horizontal scaling, RBAC, OWASP, secrets, PII, rate limiting
- **Cloud:** AWS, Azure, Docker, VPS, basic CI/CD, PostgreSQL
- **Stack:** TypeScript, Node.js, NestJS, React, Next.js, REST APIs, Bling, Pagar.me, Correios, POS
