SUMMARY

Systems analyst: I gather requirements, business rules, use cases, BPM flows, and documentation, and I model data in PostgreSQL. I design integrations with REST APIs, webhooks, and n8n automation for omnichannel CRM (WhatsApp Cloud API, Instagram, Meta), multi-tenant SaaS, permissions, RBAC, and queues. I turn AI, RAG, agents, and human handoff into metrics and dashboards using TypeScript, React, Node.js, and SQL.
